1 Introduction

As a chemist you are probably aware of the fact that the United Nations have developed the Globally Harmonized System of Classification and Labelling of Chemicals (ghs) as a global replacement for the various different systems in different countries. While it has not been implemented by all countries yet [Uni12], it is only a matter of time.

The package **GHSYSTEM** now enables you to typeset all the hazard and precautionary statements and pictograms in a very easy way. The statements are taken from EU regulation 1272/2008 [Theo8].

2 Licence and Requirements

Permission is granted to copy, distribute and/or modify this software under the terms of the LATEX Project Public License (LPPL), version 1.3 or later (http://www.latex-project.org/lppl.txt). The software has the status "maintained."

GHSYSTEM loads the following packages: expl3¹ [The13a], xparse and l3keys2e² [The13b], translations³ [Nie13], siunitx⁴ [Wri13], graphicx⁵ [Caro5], longtable⁶ [Caro4] and ifpdf⁷ [Obe11].

3 Setup

The simplest way is to load chemmacros [Nie14] which loads **GHSYSTEM** implicitily. All of **GHSYSTEM**'s options belong to chemmacros' module ghsystem. This means they can be setup with

```
_{\scriptscriptstyle 1} \chemsetup[ghsystem]{<options>} or
```

chemsetup{ghsystem/<option1>,ghsystem/<option2>}

Introduced in version 4.0

However, **GHSYSTEM** can be loaded as a standalone package and thus provides its own setup command:

```
\ghssetup{\langle options \rangle}
```

Setup command for **GHSYSTEM**.

4 Get Hazard and Precautionary Statements

4.1 Simple Statements

The general usage is simple: you use the command

```
\ghs*[\langle options\rangle] \{\langle type\rangle} \{\langle number\rangle}
```

Get statement number $\langle number \rangle$ of type $\langle type \rangle$.

There are three types available: h, euh and p. The $\langle type \rangle$ argument is case insensitive, so just type them in as you like.

^{1.} on CTAN as l3kernel: http://mirrors.ctan.org/macros/latex/contrib/l3kernel/

^{2.} on CTAN as l3packages: http://mirrors.ctan.org/macros/latex/contrib/l3packages/

^{3.} on CTAN as translations: http://mirrors.ctan.org/macros/latex/contrib/translations/

^{4.} on CTAN as siunitx: http://mirrors.ctan.org/macros/latex/contrib/siunitx/

^{5.} on CTAN as graphicx: http://mirrors.ctan.org/macros/latex/contrib/graphicx/

^{6.} on CTAN as longtable: http://mirrors.ctan.org/macros/latex/contrib/longtable/

^{7.} on CTAN as ifpdf: http://mirrors.ctan.org/macros/latex/contrib/ifpdf/

4 Get Hazard and Precautionary Statements

```
H200: Unstable explosives.

H224: Extremely flammable liquid and vapour.

Lyghs{h}{200} \par

yqhs{h}{224} \par

H200: Unstable explosives.

H224: Extremely flammable liquid and vapour.

EUH001: Explosive when dry.

EUH202: Cyanoacrylate. Danger. Bonds skin and eyes in seconds. Keep out of the reach of children.

P201: Obtain special instructions before use.
```

The starred version hides the identifier and only gives the statement. If you want to hide the statement itself instead you can use the option:

```
\frac{\text{hide} = \underline{\text{true}}|\text{false}}{\text{Hide the statement.}} Default: false
```

There is an option to customize the output, too.

```
space = \{\langle space\ command \rangle\}  (initially empty) Space\ between\ \langle type \rangle\ and\ \langle number \rangle.
```

4.2 Statements with Placeholders

Some of the statements contain placeholders. They can be one of the following:

- <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>
- <state specific effect if known>
- <or state all organs affected, if known>
- <name of sensitising substance>

Except the last one which needs to be filled in, they are hidden per default. They can be made visible with the option

```
\begin{array}{ll} \text{fill-in} = \underline{\text{true}} | \text{false} \\ \text{Show placeholders.} \end{array}
```

```
1 \ghs{h}{340} \par
2 \ghs[fill-in]{h}{340} \par
3 \ghs{h}{360} \par
4 \ghs[fill-in]{h}{360} \par
5 \ghs{h}{370} \par
6 \ghs[fill-in]{h}{370} \par
7 \ghs{euh}{208} \par
8 \ghs[fill-in]{euh}{208}
```

H₃₄o: May cause genetic defects.

H₃₄₀: May cause genetic defects. *<state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>*

H₃60: May damage fertility or the unborn child.

H₃60: May damage fertility or the unborn child. <state specific effect if known> <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>

H₃₇₀: Causes damage to organs.

H370: Causes damage to organs *<or state all organs affected, if known>. <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>*

EUH208: Contains < name of sensitising substance >. May produce an allergic reaction.

EUH208: Contains < name of sensitising substance >. May produce an allergic reaction.

These placeholders can be replaced with one of these options:

```
exposure = \{\langle text \rangle\}(initially empty)exposure placeholder(initially empty)effect = \{\langle text \rangle\}(initially empty)organs = \{\langle text \rangle\}(initially empty)organ placeholder(initially empty)substance = \{\langle text \rangle\}(initially empty)substance placeholder
```

```
1 \ghs[exposure=This is how you get exposed.]{h}{340} \par
2 \ghs[effect=These are the effects.]{h}{360} \par
3 \ghs[organs=to this organ]{h}{370} \par
4 \ghs[substance=substance]{euh}{208}
```

H₃₄₀: May cause genetic defects. This is how you get exposed.

H₃60: May damage fertility or the unborn child. These are the effects.

H₃70: Causes damage to this organ.

EUH208: Contains substance. May produce an allergic reaction.

4.3 Statements with Gaps

Some of the statements have gaps that can be filled.

These gaps can be filled using these options:

```
text = {\langle text\rangle}
Fill the text gap.

dots = {\langle text\rangle}
Fill the dots gap.

C-temperature = {\langle num\rangle}
Fill the Celsius temperature gap.

F-temperature = {\langle num\rangle}
Fill the Fahrenheit temperature gap.

kg-mass = {\langle num\rangle}
Fill the kg mass gap.

lbs-mass = {\langle num\rangle}
Fill the lbs mass gap.
```

```
'\ghs[text=contact physician!]{p}{301} \par
'\ghs[dots=here]{p}{401} \par
'\ghs[C-temperature=50, F-temperature=122]{p}{411} \par
'\ghs[kg-mass=5.0, lbs-mass=11, C-temperature=50, F-temperature=122]{p}{413}

P301: IF SWALLOWED: contact physician!
P401: Store here
P411: Store at temperatures not exceeding 50 °C/122 °F.
P413: Store bulk masses greater than 5.0 kg/11 lbs at temperatures not exceeding 50 °C/122 °F.
```

4.4 Combined Statements

There are some combinations of statements. They are input with a + between the numbers:

```
1 \ghs{p}{235+410} \\
2 \ghs{p}{301+330+331}

P235 + P410: Keep cool. Protect from sunlight.
P301 + P330 + P331: IF SWALLOWED: rinse mouth. Do NOT induce vomitting.
```

Note that you can only get combinations that officially exist. You can't combine freely.

5 Pictograms

5.1 The Pictures

The GHS defines a number of pictograms:

 $\ghspic[\langle options \rangle] \{\langle name \rangle\}$

Load pictogram $\langle name \rangle$.

Table 1 shows all available pictograms and their names. To be more precise: it shows the names to use with the $\gnormal{\gnormal}\gnormal{\gnormal}\gnormal{\gnormal}\gnormal$. The file names are ghsystem_ $\langle name \rangle$. $\langle filetype \rangle$ where $\langle filetype \rangle$ is eps, pdf, jpg or png, see also section 5.2.

```
| \ghspic{skull}
```

If you don't like the default size you can change it using this option:

 $scale = \{\langle factor \rangle\}$ Default: 1

Scales the pictogram.

The pictures are actually quite large. The default setting scales them by a factor of $\frac{1}{20}$.

If you want to use some specific \includegraphics options, *e. g.*, if you want to rotate the pictogram for some reason, use this option:

includegraphics = {\langle includegraphics keyvals\rangle}

Pass options to the underlying \includegraphics command.

1 \ghspic[includegraphics={angle=90}]{skull}

TABLE 1: All available GHS pictograms.

IAB	LE 1: All availab	ole GHS pictograms.	
name	pictogram	name	pictogram

skull-6	6		
exclam			
health			
anna1	¥2>		
aqpol	•		

5.2 Picture Type Depending on Engine

As you probably know you can't use every picture type with every compiler engine. pdfTeX in DVI mode *needs* eps pictures while pdfTeX in PDF mode, XfTeX and LuaTeX convert eps pictures into pdf files, given they have the rights to write in the directory the pictures are saved in

However, the latter can include jpg and png without any problems, while $pdfT_{E\!X}$ in dx0 mode can't.

To resolve this **GHSYSTEM** tests which engine is used and if pdfTEX which mode is used and then chooses either eps or pdf for the pictograms. You are free to choose the picture type yourself with the option

pic-type = eps|pdf|jpg|png
 Choose the picture type.

6 Available Languages

Right now the H and P statements are only available in English, German, Italian and Spanish. The package adapts chemmacros' option language or if the option hasn't been used recognizes the language settings made with babel or polyglossia. To be more precise: the language selected at begin document is recognized. Later changes won't affect GHSYSTEM. If you want to use different languages you have to use GHSYSTEM's language option then.

You can also choose the language explicitly.

language = english|german|italian|spanish
Default: english
Selects and loads language file. Falls back to english if the chosen file doesn't exist.

There is another alternative:

 $\verb|\loadghsystemlanguage|{|\langle language \rangle|}|$

Load the language used by **GHSYSTEM**.

I will add other languages some time in future. This may take a while, though. If you would be willing to contribute and write the statements of another language please feel free to contact me.⁸ I would provide you with a template file, a PDF containing the official translations, and help to all your questions.

7 List of All Statements

If for some reason you want to list all sentences you can use

```
\ghslistall[\langle options \rangle]
```

Introduced in version 4.0

Print a table with all defined statements.

This command has a number of options to customize the table, which is created with the longtable environment of the longtable package.

```
table-head-number = \{\langle text \rangle\} Default: Identifier The table head for the number.

table-head-text = \{\langle text \rangle\} Default: Statement The table head for the statement.

table-next-page = \{\langle text \rangle\} Default: continues on next page The hint for a next page.

8. contact@mychemistry.eu
```

table-caption = $\{\langle text \rangle\}$ Default: All H, EUH, and P Statements. The $\langle text \rangle$ in $\backslash caption{\langle text \rangle}$. table-caption-short = {\langle short text\rangle} (initially empty) The $\langle short \ text \rangle$ in $\backslash caption[\langle short \ text \rangle] \{\langle text \rangle\}$. $table-label = \{\langle text \rangle\}$ Default: tab:ghs-hp-statements The label to refer to the table with \ref and similar commands. table-row-sep = $\{\langle dim \rangle\}$ Default: 3pt The separation of the table rows. A TeX dimension. table-rules = default|booktabs|none Default: default The style of the horizontal rules in the table. default uses \hline, booktabs uses \toprule, \midrule and \bottomrule, resp. This option needs the booktabs package which you have to load yourself then. Default: default table-top-head-rule = default|booktabs|none Change top rule explicitly. table-head-rule = default|booktabs|none Default: default Change rule below head explicitly. table-foot-rule = default|booktabs|none Default: default Change foot rule explicitly. table-last-foot-rule = default|booktabs|none Default: default Change last foot rule explicitly.

The code below shows how table 2 was created:

1 \ghslistall[fill-in,table-rules=booktabs]

TABLE 2: All H, EUH, and P Statements.

Statement
Unstable explosives.
Explosive; mass explosion hazard.
Explosive, severe projection hazard.
Explosive; fire, blast or projection hazard.
Fire or projection hazard.
May mass explode in fire.
Extremely flammable gas.

Identifier	Statement
H221	Flammable gas.
H222	Extremely flammable aerosol.
H223	Flammable aerosol.
H224	Extremely flammable liquid and vapour.
H225	Highly flammable liquid and vapour.
H226	Flammable liquid and vapour.
H228	Flammable solid.
H240	Heating may cause an explosion.
H241	Heating may cause a fire or explosion.
H242	Heating may cause a fire.
H250	Catches fire spontaneously if exposed to air.
H251	Self-heating: may catch fire.
H252	Self-heating in large quantities; may catch fire.
H260	In contact with water releases flammable gases which may ignite spontaneously.
H261	In contact with water releases flammable gases.
H270	May cause or intensify fire; oxidiser.
H271	May cause fire or explosion; strong oxidiser.
H272	May intensify fire; oxidiser.
H280	Contains gas under pressure; may explode if heated.
H281	Contains refrigerated gas; may cause cryogenic burns or injury.
H290	May be corrosive to metals.
H300	Fatal if swallowed.
H301	Toxic if swallowed.
H302	Harmful if swallowed.
H304	May be fatal if swallowed and enters airways.
H310	Fatal in contact with skin.
H311	Toxic in contact with skin.
H312	Harmful in contact with skin.
H314	Causes severe skin burns and eye damage.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.

Identifier	Statement
H319	Causes serious eye irritation.
H330	Fatal if inhaled.
H331	Toxic if inhaled.
H332	Harmful if inhaled.
H ₃₃₄	May cause allergy or asthma symptoms orbreathing difficulties if inhaled.
H ₃₃₅	May cause respiratory irritation.
H336	May cause drowsiness or dizziness.
H ₃₄ 0	May cause genetic defects. <state cause="" conclusively="" exposure="" hazard="" if="" is="" it="" no="" of="" other="" proven="" route="" routes="" that="" the=""></state>
H341	Suspected of causing genetic defects. <state cause="" conclusively="" exposure="" hazard="" if="" is="" it="" no="" of="" other="" proven="" route="" routes="" that="" the=""></state>
H ₃₅ 0	May cause cancer. <state cause="" conclusively="" exposure="" hazard="" if="" is="" it="" no="" of="" other="" proven="" route="" routes="" that="" the=""></state>
H ₃₅₁	Suspected of causing cancer. <state cause="" conclusively="" exposure="" hazard="" if="" is="" it="" no="" of="" other="" proven="" route="" routes="" that="" the=""></state>
H360	May damage fertility or the unborn child. <state effect="" if="" known="" specific=""> <state cause="" conclusively="" exposure="" hazard="" if="" is="" it="" no="" of="" other="" proven="" route="" routes="" that="" the=""></state></state>
H361	Suspected of damaging fertility or the unborn child. <state effect="" if="" known="" specific=""> <state cause="" conclusively="" exposure="" hazard="" if="" is="" it="" no="" of="" other="" proven="" route="" routes="" that="" the=""></state></state>
H362	May cause harm to breast-fed children.
Н370	Causes damage to organs <or affected,="" all="" if="" known="" organs="" state="">. <state cause="" conclusively="" exposure="" hazard="" if="" is="" it="" no="" of="" other="" proven="" route="" routes="" that="" the=""></state></or>
H371	May cause damage to organs <or affected,="" all="" if="" known="" organs="" state="">. <state cause="" conclusively="" exposure="" hazard="" if="" is="" it="" no="" of="" other="" proven="" route="" routes="" that="" the=""></state></or>
H ₃₇₂	Causes damage to organs <i><or< i=""> state all organs affected, if known> through prolonged or repeated exposure. <i><state cause="" conclusively="" exposure="" hazard="" if="" is="" it="" no="" of="" other="" proven="" route="" routes="" that="" the=""></state></i></or<></i>

Identifier	Statement
H ₃₇₃	May cause damage to organs <i><or affected,="" all="" if="" known="" organs="" state=""></or></i> through prolonged or repeated exposure. <i><state cause="" conclusively="" exposure="" hazard="" if="" is="" it="" no="" of="" other="" proven="" route="" routes="" that="" the=""></state></i>
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
H411	Toxic to aquatic life with long lasting effects.
H412	Harmful to aquatic life with long lasting effects.
H413	May cause long lasting harmful effects to aquatic life.
H350i	May cause cancer by inhalation.
H360F	May damage fertility.
H360D	May damage the unborn child.
H361f	Suspected of damaging fertility.
H361d	Suspected of damaging the unborn child.
H ₃ 6oFD	May damage fertility. May damage the unborn child.
H361fd	Suspected of damaging fertility. Suspected of damaging the unborn child.
H36oFd	May damage fertility. Suspected of damaging the unborn child.
H ₃ 6oDf	May damage the unborn child. Suspected of damaging fertility.
EUH001	Explosive when dry.
EUHoo6	Explosive with or without contact with air.
EUH014	Reacts violently with water.
EUHo18	In use may form flammable/explosive vapour-air mixture.
EUH019	May form explosive peroxides.
EUH044	Risk of explosion if heated under confinement.
EUH029	Contact with water liberates toxic gas.
EUH031	Contact with acids liberates toxic gas.
EUH032	Contact with acids liberates very toxic gas.
EUHo66	Repeated exposure may cause skin dryness or cracking.
EUH070	Toxic by eye contact.
EUH071	Corrosive to the respiratory tract.
EUHo59	Hazardous to the ozone layer.
EUH201	Contains lead. Should not be used on surfaces liable to be chewed or sucked by children.

Identifier	Statement
EUH201A	Warning! contains lead.
EUH202	Cyanoacrylate. Danger. Bonds skin and eyes in seconds. Keep out of the reach of children.
EUH203	Contains chromium (VI). May produce an allergic reaction.
EUH204	Contains isocyanates. May produce an allergic reaction.
EUH205	Contains epoxy constituents. May produce an allergic reaction.
EUH206	Warning! Do not use together with other products. May release dangerous gases (chlorine).
EUH207	Warning! Contains cadmium. Dangerous fumes are formed during use. See information supplied by the manufacturer. Comply with the safety instructions.
EUH208	Contains <i><name of="" sensitising="" substance=""></name></i> . May produce an allergic reaction.
EUH209	Can become highly flammable in use.
EUH209A	Can become flammable in use.
EUH210	Safety data sheet available on request.
EUH401	To avoid risks to human health and the environment, comply with the instructions for use.
P101	If medical advice is needed, have product container or label at hand.
P102	Keep out of reach of children.
P103	Read label before use.
P201	Obtain special instructions before use.
P202	Do not handle until all safety precautions have been read and understood.
P210	Keep away from heat/sparks/open flames/hot surfaces. — No smoking.
P211	Do not spray on an open flame or other ignition source.
P220	Keep/Store away from clothing//combustible materials.
P221	Take any precaution to avoid mixing with combustibles
P222	Do not allow contact with air.
P223	Keep away from any possible contact with water, because of violent reaction and possible flash fire.
P230	Keep wetted with
P231	Handle under inert gas.
P232	Protect from moisture.

Identifier	Statement
P233	Keep container tightly closed.
P234	Keep only in original container.
P235	Keep cool.
P240	Ground/bond container and receiving equipment.
P241	Use explosion-proof electrical/ventilating/lighting/ equipment.
P242	Use only non-sparking tools.
P243	Take precautionary measures against static discharge.
P244	Keep reduction valves free from grease and oil.
P250	Do not subject to grinding/shock//friction.
P251	Pressurized container: Do not pierce or burn, even after use.
P260	Do not breathe dust/fume/gas/mist/vapours/spray.
P261	Avoid breathing dust/fume/gas/mist/vapours/spray.
P262	Do not get in eyes, on skin, or on clothing.
P263	Avoid contact during pregnancy/while nursing.
P264	Wash thoroughly after handling.
P270	Do not eat, drink or smoke when using this product.
P271	Use only outdoors or in a well-ventilated area.
P272	Contaminated work clothing should not be allowed out of the workplace.
P273	Avoid release to the environment.
P280	Wear protective gloves/protective clothing/eye protection/face protection.
P281	Use personal protective equipment as required.
P282	Wear cold insulating gloves/face shield/eye protection.
P283	Wear fire/flame resistant/retardant clothing.
P284	Wear respiratory protection.
P285	In case of inadequate ventilation wear respiratory protection.
P231 + P232	Handle under inert gas. Protect from moisture.
P235 + P410	Keep cool. Protect from sunlight.
P301	IF SWALLOWED:
P302	IF ON SKIN:
P303	IF ON SKIN (or hair):
P304	IF INHALED:
P305	IF IN EYES:

Identifier	Statement
P306	IF ON CLOTHING:
P307	IF exposed:
P308	IF exposed or concerned:
P309	IF exposed or if you feel unwell:
P310	Immediately call a POISON CENTER or doctor/physician.
P ₃₁₁	Call a POISON CENTER or doctor/physician.
P312	Call a POISON CENTER or doctor/physician if you feel unwell.
P313	Get medical advice/attention.
P314	Get medical advice/attention if you feel unwell.
P ₃₁₅	Get immediate medical advice/attention.
P320	Specific treatment is urgent (see on this label).
P321	Specific treatment (see on this label).
P322	Specific measures (see on this label).
P330	Rinse mouth.
P ₃₃₁	Do NOT induce vomitting.
P332	If skin irritation occurs:
P ₃₃₃	If skin irritation or rash occurs:
P ₃₃₄	Immerse in cool water/wrap in wet bandages.
P ₃₃₅	Brush off loose particles from skin.
P336	Thaw frosted parts with lukewarm water. Do not rub affected area.
P337	If eye irritation persists:
P338	Remove contact lenses, if present and easy to do. Continue rinsing.
P ₃₄ 0	Remove victim to fresh air and keep at rest in a position comfortable for breathing.
P ₃₄₁	If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.
P342	If experiencing respiratory symptoms:
P350	Gently wash with plenty of soap and water.
P351	Rinse cautiously with water for several minutes.
P ₃₅₂	Wash with plenty of soap and water.
P ₃₅₃	Rinse skin with water/shower.
P360	Rinse immediately contaminated clothing and skin with plenty of water before removing clothes.
P361	Remove/Take off immediately all contaminated clothing.

Identifier	Statement
P362	Take off contaminated clothing and wash before reuse.
P ₃ 6 ₃	Wash contaminated clothing before reuse.
P370	In case of fire:
P371	In case of major fire and large quantities:
P372	Explosion risk in case of fire.
P ₃₇₃	DO NOT fight fire when fire reaches explosives.
P ₃₇₄	Fight fire with normal precautions from a reasonable distance.
P ₃₇₅	Fight fire remotely due to the risk of explosion.
P376	Stop leak if safe to do so.
P ₃₇₇	Leaking gas fire: Do not extinguish, unless leak can be stopped safely.
P378	Use for extinction.
P380	Evacuate area.
P381	Eliminate all ignition sources if safe to do so.
P390	Absorb spillage to prevent material damage.
P391	Collect spillage.
P301 + P310	IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.
P ₃ 01 + P ₃ 12	IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.
P301 + P330 + P331	IF SWALLOWED: rinse mouth. Do NOT induce vomitting.
P302 + P334	IF ON SKIN: Immerse in cool water/wrap in wet bandages.
P ₃ 02 + P ₃ 50	IF ON SKIN: Gently wash with plenty of soap and water.
P302 + P352	IF ON SKIN: Wash with plenty of soap and water.
P ₃ 0 ₃ + P ₃ 6 ₁ + P ₃ 5 ₃	IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
P ₃ 0 ₄ + P ₃ 4 ₀	IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
P ₃ 0 ₄ + P ₃ 4 ₁	IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.
P ₃ 0 ₅ + P ₃ 5 ₁ + P ₃ 3 ₈	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P306 + P360	IF ON CLOTHING: Rinse immediately contaminated clothing and skin with plenty of water before removing clothes.
P307 + P311	IF exposed: Call a POISON CENTER or doctor/physician.

Identifier	Statement
P308 + P313	IF exposed or concerned: Get medical advice/attention.
P309 + P311	IF exposed or if you feel unwell: Call a POISON CENTER or doctor/physician.
P332 + P313	If skin irritation occurs: Get medical advice/attention.
P ₃₃₃ + P ₃₁₃	If skin irritation or rash occurs: Get medical advice/attention.
P ₃₃₅ + P ₃₃₄	Brush off loose particles from skin. Immerse in cool water/wrap in wet bandages.
P337 + P313	If eye irritation persists: Get medical advice/attention.
P ₃₄₂ + P ₃₁₁	If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician.
P370 + P376	In case of fire: Stop leak if safe to do so.
P ₃₇ 0 + P ₃₇ 8	In case of fire: Use for extinction.
P370 + P380	In case of fire: Evacuate area.
P ₃₇₀ + P ₃ 80 + P ₃ 75	In case of fire: Evacuate area. Fight fire remotely due to the risk of explosion.
P ₃₇₁ + P ₃ 80 + P ₃ 75	In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion.
P401	Store
P402	Store in a dry place.
P403	Store in a well-ventilated place.
P404	Store in a closed container.
P405	Store locked up.
P406	Store in corrosive resistant/ container with a resistant inner liner.
P407	Maintain air gap between stacks/pallets.
P410	Protect from sunlight.
P411	Store at temperatures not exceeding °C/°F.
P412	Store at temperatures not exceeding 50 °C/122 °F.
P ₄₁₃	Store bulk masses greater than kg/lbs at temperatures not exceeding $^{\circ}\text{C}/^{\circ}\text{F}.$
P420	Store away from other materials.
P422	Store contents under
P402 + P404	Store in a dry place. Store in a closed container.
P403 + P233	Store in a well-ventilated place. Keep container tightly closed.
P403 + P235	Store in a well-ventilated place. Keep cool.
